

```
/*-----  
Lab 2 (a) Submission  
Stacks -- Read a string from user input and reverse the sequence  
           of characters using stacks.  
Created by Hyo Lee  
Student ID: 002292770  
01/19/2016  
-----*/
```

Screenshot 1 shows the same results as the example in the Lab write up.
CSUMB is entered and the output correctly displays in reverse as BMUSC.

Screenshot 2 shows several words separated by a space and other characters.
